On the appraisal and support of the
Declaration (Petition) of an intent to build
«Commercial Black Sea Port YACONTO»
in the Tuapse region of Krasnodar Territory

Having reviewed the proposals of YACONTO LLC described in the Declaration (Petition) from November 12th, 2003 of an intent to build «Commercial Black Sea Port YACONTO» and the Explanatory Note to it, as well as in other presented documents, we fully support the erection of the «YACONTO Port» in the district of railway stations “Vesna” - “Gizel-Dere” - “Yuzhni”, taking into consideration the reconstruction of old and creation of new railway capacities of Tuapse - Belorechenskaya and Tuapse - «YACONTO Port» destinations, including the establishment of necessary infrastructure at the expense of the investor. «YACONTO Port» will significantly improve the socio-economic development of the region.
