

**18.10.2011 № 111018-A02**

On conduction of an independent investigation of a large-scale crime in Russia - the Atom mash OJSC bankruptcy case, and on the sale of 30% interest in the latter to YACONTO LLC

**To the Deputy  
of the State Duma  
of the Federal Assembly  
of Russian Federation**

**A.I. LISITSYN**

Russia, 103265, Moscow,  
ul. Okhotny Ryad, 1

**Dear Anatoly Ivanovich !**

In addition to the Letters №110201-A02 of 01.02.2011, №110303-A02 of 03.03.2011, №110420-A02 of 20.04.2011 previously sent to you by YACONTO LLC and other appeals regarding the premeditated bankruptcy and liquidation of national nuclear engineering flagship Atom mash OJSC (Volgodonsk, Rostov region), I inform you of the following.

In accordance with 4 Orders from the Russian President D.A. Medvedev: from 29.06.2010 №Pr-1883, from 21.08.2010 №Pr-2448, from 19.05.2011 №Pr-1413 and from 08.07.2011 №Pr-1948, the RF Presidential Control Directorate conducts an investigation of the premeditated bankruptcy and liquidation of Atom mash OJSC, where the State owned 30% share.

YACONTO LLC has prepared another Letter to Russian President D.A. Medvedev (out. №111018-A01 of 18.10.2011) with List of Documents №2 enclosed; it enlists documents sent by Russian YACONTO companies to law enforcement and supervisory agencies, special services, authorities of executive and legislative power, regarding the ATOM MASH OJSC bankruptcy and liquidation case. The said List does not include all existing appeals sent by YACONTO companies between 1995 and 2011. But the ones that are enlisted are enough to understand what was, and what is happening around the Atom mash OJSC case.

For 11 years, YACONTO LLC (Russia, Moscow), as the proprietor of 28.5% share in Atom mash OJSC, has been struggling actively to restore - in the interests of the State itself - the latter's rights for 30% interest in Atom mash OJSC, illegally seized from it during the bankruptcy.

The State and YACONTO LLC, being the shareholders of Atom mash OJSC, are "on the same side of the barricades". Corrupt bureaucracy and their accomplices, who act in the name of the State and actively cover the anti-state activities of those who bankrupted Atom mash OJSC, are on the "other" side.

In order to solve the issue of the return of lost property, illegally seized from the State and other shareholders during the premeditated bankruptcy of Atom mash OJSC that took place in 1995–1999, YACONTO LLC has developed Project-A, the implementation of which will solve the problems and tasks faced by Russia, in the interest of the state, society and business. Project-A will restore the status quo of Atom mash OJSC and bring back 30% of its shares to the State; the guilty party will compensate for the damage dealt; the State will accumulate the controlling stake in Atom mash OJSC through exchanging the 28.5% share owned by YACONTO LLC for property agreed with the investors and partners; all payables to third parties will be paid; the State accumulated interest in Atom mash OJSC and other assets obtained as compensation for the colossal damage dealt to Atom mash may be transferred to entities authorized by the state to carry out the development of nuclear engineering and socio-economical development in Russia and abroad.

If the Supreme leadership of the State supports the implementation of Project-A, strategic foreign partners of YACONTO LLC will ensure investments in the amount of hundreds of billions of U.S. dollars in Russia, for the implementation of the large-scale multidisciplinary YACONTO International Program which consists of promising, highly efficient projects and programs. Due to a possible information leakage, YACONTO LLC believes it is premature to expose the details about this program.

As a possible alternative to Project-A, developed in the interests of the State, YACONTO LLC proposes another variant, where YACONTO LLC purchases the 30% share in Atom mash OJSC, which used to be owned by the State, from the latter. It requires nothing but a political will and decision from the supreme leadership of the State.

In order to ensure effective development of nuclear engineering and implementation of socio-economic programs in Russia, **I ask you** to support, before the Russian President D.A. Medvedev, the proposal of YACONTO LLC for the implementation of Project-A for the restoration of the status-quo of Atom mash OJSC or an alternative option, set forth in the enclosed Letter from YACONTO LLC (out. №111018-A01 of 18.10.2011).

**Attachment:** 7 documents on 13 sheets.

*(Original text is in Russian.)*

**Respectfully yours,**

**President of YACONTO LLC**

**S.P. YAKUNIN**
