May 21st 2007

№ KHAN-1493/GD

To the First Deputy Prime Minister
of Russian Federation,
Chairman of the Marine Board
of the Russian Government

S.B. IVANOV

Dear Sergey Borisovich!

Members of “Clean city”, the action group of public associations and political parties of Tuapse city addressed me on behalf of the people of Tuapse city and Tuapse region, asking to support their Appeal to you (out. № 37 from 14.05.2007) as the First Deputy Prime Minister of Russian Federation and a Chairman of the Marine Board of the Russian Government regarding the solution of sanitary, environmental and socio-economical problems of Tuapse city and Tuapse region of Krasnodar Territory.

The said Appeal is directly linked with the implementation of the non-state investment YACONTO Integrated Program for the construction of a «Commercial Black Sea port YACONTO» in Tuapse region of Krasnodar Territory, creation of a Tuapse Naval Base for basing and reparation of Russian Black Sea Fleet ships (including those subject to withdrawal from Ukraine) and creation of a single production, transport and social infrastructure for the «YACONTO Port» and the TNB.

I ask you to review and support the enclosed Appeal together with a Letter I previously sent to you (out. № KHAN-1482/GD from 10.05.2007), which is fully in line with the State interests and the Russian President V.V. Putin’s Message to the Federal Assembly from 26.04.2007.

Attachment: 3 documents on 8 pages.

Best regards,

Vice Chairman of the Committee
of SD for constitutional legislation
and State building

A.N. Kharitonov
