Regarding the support of  
YACONTO Integrated Program

***Much Esteemed Sergey Pavlovich!***

In response to your letter (out. № 1-61226 from 26.12.2006) the Oil and Gas Research Institute of RAS has reviewed the presented materials of the non-state investment YACONTO Integrated Program.

Oil and Gas Research Institute of RAS is ready to participate in the scientific support of YACONTO Integrated Program according to the institute's specialty. Considering the importance of YACONTO Integrated Program, it appears to be expedient to implement it on a public-private partnership basis, utilizing funding from the Investment Fund of Russian Federation.

Director of the Institute  
academician of RAS

A.N. Dmitrievskiy
