Topic: ЯКОНТО / YACONTO personally to M.D. Prokhorov

---

**To the Leader  
of the Russia-wide political party “Right Cause”  
M.D. Prokhorov (with clarifications and additions)**

**Dear Mikhail Dmitriyevich !**

On 29.06.2011 YACONTO LLC (Russia, Moscow) submitted to your office (123104, Moscow, Tverskoy boulevard, 13, bld. 1) three sets of documents about the fraudulent bankruptcy of Atom mash OJSC (Volgodonsk, Rostov region), Russian nuclear engineering flagship, for you personally and your associates from the “Right Cause”. Taking into consideration great interest to the situation around the nuclear industry giant shown by different political parties – who express directly opposite ideas and positions about everything in Russia but are unanimous in their effort to restore the status quo of Atom mash OJSC – YACONTO LLC decided that it’s expedient to propose to you, as the Leader of the “Right Cause” political party, to take part in the restoration of the Law and justice for Atom mash OJSC, in the interests of the state, society and business.

The sets of documents shared with you contain information that gives general understanding of the situation around Atom mash OJSC. More detailed information can be found on WWW.YACONTO.RU, which, admittedly, has a very basic design, but is abundant with striking documented information and facts.

For a political revenge, the “Right Cause” party needs the most innovative and disruptive technologies; information and facts published on WWW.YACONTO.RU will secure the revenge without serious difficulty and cost. In particular, the large-scale multidisciplinary nongovernmental investment YACONTO Integrated Program and YACONTO International Program, mentioned on the said website, do not require financial guarantees from the State or banks, since we have confidential agreements with potential foreign investors and strategic partners.

Dear Mikhail Dmitriyevich, notwithstanding your busy schedule, I kindly ask you to nevertheless find time to familiarize yourself with the documents about the premeditated bankruptcy of Atom mash OJSC sent by YACONTO LLC to you personally, and with online information on WWW.YACONTO.RU, which would undoubtedly be of interest to the future Leader, whose ambitions are to be a major political and public figure in the revival of the Great Russia. Besides, both topics – the national nuclear industry giant and the aforesaid programs – are interrelated.

I am counting on your understanding of the tasks and problems and looking forward for your reply.

*(Original text is in Russian.)*

**Respectfully yours,  
S.P. Yakunin, President of YACONTO LLC**
