

PROTOCOL OF INTENTIONS

We, the undersigned

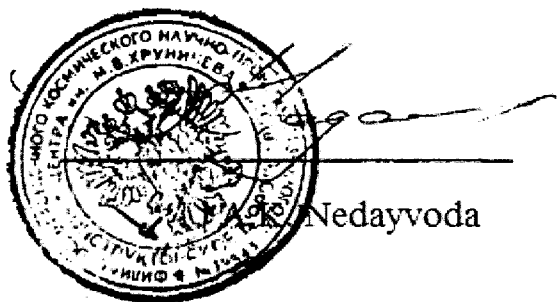

General Designer of SALYUT Design Bureau of State Research and Production Space Center named after M.V. Khrunichev (Russia, Moscow), Mr. Anatoly K. NEDAYVODA on the one side **and General Director of YACONTO Co Ltd (Russia, Moscow), Mr. Sergei P. YAKUNIN** on the other side,

considering the proposals of YACONTO Co Ltd (out. № 9-5-PYA from 09.05.1995), the available technical potential of Atommash OJSC, "Volgodonsk plant of radio-electronic equipment" OJSC (VZRTA OJSC), Belokalitvinsky Metallurgical Production Association, Azov pilot-mechanical plant and their subsidiaries, branch enterprises and the affiliates of YACONTO Co Ltd (Moscow), and considering the current co-operation and experience for the production of UGO for the manufacturing of "PROTON", have agreed as follows:

1. Maintain the existing cooperation on manufacturing of test facility equipment for the SALYUT Design Bureau (Moscow) under 12KRB according to the proposal of the Pilot Plant of SALYUT Design Bureau (Moscow).
2. Broaden the existing experience in manufacturing of non-standard and other equipment for the SALYUT Design Bureau (Moscow) once manufacturing the International Space Station "ALPHA".
3. Utilize existing capabilities of Atommash OJSC and VZRTA OJSC in the restoration of TPs, launch complexes (LC) and the creation of new alternative LCs.
4. Engage design, manufacturing and testing facilities of VZRTA OJSC in the creation and production of radio-electronic and other equipment for SALYUT Design Bureau (Moscow).
5. The basis of the work and funding is set by the aligned agreements (contracts) between the SALYUT Design Bureau of State Research and Production Space Center named after MV Khrunichev (Moscow) and YACONTO Co Ltd (Moscow).

Representing SALYUT Design Bureau of SRPSC named after M.V. Khrunichev

Representing YACONTO Co Ltd

Nedayvoda

Sergey P. Yakunin
