Dear Vasilij Borisovich!

I know that you and the President of the “International League for the Defense of Human Dignity and Security”, Hero of the Soviet Union, General of the Army V.I. Varennikov actively support the implementation of non-state investment YACONTO Integrated Program aimed at the socio-economic development of Krasnodar Territory, security and defense capability of Russia in the Azov-Black Sea basin.

Back in 2004 I examined numerous materials on this Program, promising and valuable for Russia, thoroughly and began to regularly counsel the President of the YACONTO LLC S.P. Yakunin, the Program’s developer, owner and executive. I intend to continue supporting the development of this large-scale multidisciplinary Program in the implementation of which many organizations, enterprises and individuals are interested avidly.

YACONTO LLC has serious offers of compete funding for this program coming from international organizations and companies on the long-term and mutually beneficial terms.

Dear Vasilij Borisovich, I consider it necessary to kindly ask you to support the implementation of the unprecedented YACONTO Integrated Program on a high governmental level, because it will solve many social and economic problems in the south of the country.

August 31st, 2008

With deep respect,
Citizen of Russia
Dementsev V.V.
